VIDEO CLIPS OF PARENT-CHILD INTERACTION SKILLS

Video 1: FOLLOWING YOUR CHILD'S LEAD

This video shows children of varying ages, but the ideas in the video clip are useful for any child who cannot yet focus on adult-led activities and has delayed language and learning.

https://www.youtube.com/watch?v=qcW6fmaLSdc&feature=youtu.be&ab_channel=AbansdelesPri meresParaules

Video 2: LABELLING

This clip is useful for children who are just beginning to use their first words or to make the links between what people say and what the child is focusing on.

Video 3: KEEP LANGUAGE SIMPLE

Please note that the title mentions 12-18 months age and so it would need to be explained carefully that the ideas in this clip will be appropriate for the child's stage of communication development, and so the 12-18 months age reference may be less relevant.

Video 4: LOOKING AT BOOKS TOGETHER TO DEVELOP EARLY LANGUAGE SKILLS

Children should have the skills to look at picture books for short periods, although the child should be allowed to go at their pace while the adult follows the child's lead.

Video 5: DEVELOPING TWO-WAY INTERACTIONS BY FOLLOWING THE 5 'SERVE AND RETURN' IDEAS

This video developed by Harvard University contains lots of ideas and practical video demonstrations.
